- All major credit cards are accepted and a processing fee will be added to your purchase. Your credit card information will not be saved after processing the registration.

The tennis event has two different time slots with different sessions and levels of play.

- In a round robin doubles format, each team will be playing against several other comparable teams in short-set matches.
- The combined ability ratings of each double's team determines whether they would most appropriately play in the "A" (advanced teams with a combined USTA NTRP rating between 7.5-9.0) and "B" (intermediate teams with combined NTRP between 6.0-7.5).
- The number of games per round is determined by how many teams are in each group.
- Short breaks will usually occur between rounds as teams get ready to meet and play each of their subsequent opponents.
- The tennis courts will be available for warm-ups starting 30 minutes before each session. Please bring your own warm-up balls.
- Water and snacks are available during and between the matches. **This is a no-alcohol event, so no BYOB!**
